Color in your Mexican gray wolf and cut out along the dotted lines. Enjoy your book!

DID YOU KNOW?

This week (March 26 - April 1) marks the 25th anniversary of the endangered Mexican gray wolf being released back into the wild southwest.

In recognition of the anniversary, the WCC is among the large group of partners participating in #LoboWeek, an international movement to educate people about the Mexican wolf or "lobo" and our efforts to successfully restore this critically endangered wolf to its ancestral home in the wild.
